The School's Pack service takes care of every aspect of coach hire for your next school trip. What's more, it'll save you money too.

London's east end is intrinsically linked to the upcoming 2012 Summer Games and the whole area is currently undergoing a massive regeneration programme in preparation for what has to be one of the world's highest profile sporting events.

As this landscape transforms, The Kings Ferry is providing organised and bespoke tours for small and large groups designed to take in the main sites of interest during the next two years.
