

Commuter Contingency Plan- Winter Weather

Purpose

The purpose of the WCCP is to ensure that our commuter customers are supplied with a consistent service and are fully briefed on our routes prior to and during adverse weather conditions.

The plan has also been put together to ensure the safety of our drivers and vehicles by preventing the use of roads that are known to be impassable or treacherous during icy and snowy weather.

Distribution

The WCCP will be available on our website when snow is forecast. Customers will be made aware of it's location on our websites prior to its implementation.

When the WCCP is implemented customers should be notified via Twitter, Facebook and email.

Internally the WCCP should be distributed to all departments.

Basis of the Plan

The following plan has been put in place for use during severe weather, i.e. snow, ice. It is understood that, depending on conditions, it may be necessary to make adjustments to this plan.
